The ITS Trail Committee is making an appearance in local homecoming parades again this year. Last year, John Fritsche brought his fun trike caravan to several local homecomings, and we have started again this year. John Fritsche, Jarid Ott, Rus Masinelli, and Anita Masinelli participated in the Black Diamond Days.

The crowd seems to appreciate the novelty of our own bicycle-powered float. We hope it spreads the word about the ITS trail and increases interest in multi use trails in general.

The homecoming events require a fair amount of help - and at many of the homecomings an extra rider or two may be helpful. If you are interested in helping in any way - set-up, picture-taking, or even riding, please contact us .
